2.8 A to 250 A

Asterion

Sorensen

Asterion DC Series

High Performance Programmable DC Power Supply

Advanced Features

- High power density up to 5 kW in a 1U chassis and 10 kW in a 2U chassis
- Fixed or autoranging output models
- Intuitive touch panel control
- Multi-language display for global operation
- Auto paralleling for higher power
- Active power factor correction (PFC)
- Standard LXI LAN, USB, and RS232 interfaces
- Optional EtherCAT and GPIB interface
- Full remote control via Virtual Panels[™]

Performance. Reliance. Brilliance.

The Sorensen[™] Asterion[®] DC Series is the newest addition to the Asterion platform of power testing solutions. The new DC series features two types of product lines: fixed range and autoranging. The fixed range supplies are economical, traditional, rectangular wave output power supplies with all the enhanced operation advantages standard with the Asterion platform. The autoranging supplies feature expanded current and voltage range at the full output power level, enabling the ability to satisfy a wider testing need without requiring the purchase of additional models.

Maximize rack space utilization with leading DC power density in a 1U or 2U chassis. Autoranging models satisfy a wider testing need in a single power supply. Quickly and expertly control the DC supply with intuitive touchscreen.

Control via Front Panel Touchscreen & Encoder Knob or available digital control interfaces

The Asterion AC Series is Digital Signal Processor (DSP) controlled and can be operated from the intuitive, easyto-use front panel touchscreen or the Ethernet LXI, USB and RS232 standard control interfaces, as well as through the optional GPIB or EtherCAT control interface.

The touchscreen function group icons include a Dashboard, Output Programming Parameters, Measurements, Sequencing, Configuration, Control Interfaces, Applications, and System Settings. Function selection and parameter entry can be achieved either by direct selection from the touchscreen or by using the encoder selector button. The control resolution is adjusted by a dynamic rate change algorithm that combines the benefits of precise control over small parameter changes with quick sweeps through the entire range.

Applications

The Asterion DC Series is designed for testing today's complex electronics, including telecommunications and commercial electronics requiring low profile, light weight power supplies with high power density. Other applications include:

- Military and aerospace electronics test
- DC power simulation
- Commercial manufacturing and process control
- Research and development
- Automotive component and battery testing
- ATE applications

Autoranging Model Output Characteristic

The Asterion DC autoranging models have an output characteristic where the full rated output power is available at voltage and current ranges greater than the conventional rectangular output characteristic of fixed range power supplies. The output current versus output voltage follows a constant-power curve to provide users a wider current and voltage operating range in a single power supply.

Figure 1 - Fixed Range vs Autoranging Output

Asterion DC Virtual Panels (Graphical User Interface)

Virtual Panels allow remote control of the Asterion DC power supply as well as programming communication and monitoring of the instrument without the front panel display. You can perform all operations via the remote Virtual Panels control as you could working directly with the unit's front panel.

Virtual Panels "main status," "sequencing" and "output ramp" screens are shown.

| Remote Control Digital Interfaces | |
|-----------------------------------|--|
| LAN | Ethernet 10BASE-T and 100BASE-T over twisted-pair cables compliant with IEEE 802.3; Connector: 8P8C modular jack. |
| RS-232 | Serial interface compliant to RS-232C; Protocol: data bits, 7 with parity and 8 without parity; stop bits, 2; baud rate, 9600 to 115200; handshake, CTS and RTS; Connector: Subminiature-D, 9-contact receptacle. |
| USB | Serial interface compliant to USB 2.0; Connector: Type-B receptacle. |
| ECAT-3 (Option) | EtherCAT (Ethernet for Control Automation Technology) is an Ethernet-based fieldbus system. The protocol is standardized in IEC 61158 and is suitable for both hard and soft real-time computing requirements in automation technology. |
| IEEE-488 (Option) | Parallel interface complies with IEEE-488.1, IEEE-488.2, and the SCPI command specification; command execution response time, 10 ms, typical; connector: IEEE-488.1 compliant. |

| Unit Protection | |
|-------------------------------------|---|
| Output Overvoltage Protection (OVP) | Programmable to 110% of full-scale output voltage, exceeding OVP threshold results in shutdown of output. |
| Output Current Limit Protection | User-selectable fold back mode CV/CC/CP or CV or CC or CP modes. |
| | In CV/CC/CP mode, output current or power is regulated to setpoint on reaching limit. |
| | In CV mode, on reaching current or power limits results in shutdown of output. |
| | In CC mode, on reaching voltage or power limits results in shutdown of output. |
| | In CP mode, on reaching voltage or current limits results in shutdown of output. |
| | In CV or CC or CP mode, shutdown delay on reaching the limit is programmable from 100 ms to 5 s. |
| AC Input Overcurrent Protection | Internal fuses in each phase for fault isolation; not user replaceable. |
| AC Input Undervoltage Protection | Automatic shutdown for insufficient AC input voltage. |
| AC Input Transient Protection | Protection to withstand EN61326-1, Class-A surge levels. |
| Overtemperature Protection (OTP) | Internal temperature monitors cause shutdown of output if temperature thresholds are exceeded. |

| Hold-Up Time ³ , typical | ≥ 10 ms |
| Inrush Current, typical⁴ | ≤ 50 A |
| 1-PH Input Connections (1.7 kW to 5 kW models only) | 2 wires + ground, 264 VAC, maximum line-neutral or line-line |
| 3-PH Input Connections | 3 wires + ground, delta configuration, 264 VAC maximum line-to-line 4 wires + ground, wye configuration, 457 VAC maximum line-to-line |
| Isolation Voltage | 1500 VAC primary to earth, 3000 VAC on primary to SELV and Hazardous secondary to SELV isolation barriers |

¹⁾ Typical Value, at full load, with 200/400VAC Input voltage

²⁾ At full load and with 200/400VAC input voltage, 50/60 Hz input frequency

³⁾ Typical Value, At full load and with nominal AC input voltage, 50/60 Hz input frequency

| | 1-Phase Low Input Range | 1-Phase High Input Range | 1-Phase High Input Range | 3-Phase |
|--------------------|----------------------------|-----------------------------|-----------------------------|----------------------------------|
| Rated Output Power | 90 -145 VAC | 180-200 VAC | 200-264 VAC | 180-264 VAC or 342-457 VAC |
| 1.7 kW | 1.2 kW ¹ | 1.7 kW | 1.7 kW | 1.7 kW |
| 3.4 kW | 1.2 kW ^{1,3} | 3.0 kW ³ | 3.4 kW | 3.4 kW |
| 5.0 kW | 1.7 kW | 3.4 kW | 3.4 kW ² | 5.0 kW |
| 10.0 kW | NA | NA | NA | 10.0 kW |

 $^{2)}$ 5 kW if unit is powered by greater than or equal to 30 A and ambient does not exceed 40°C.

³⁾ For 3.4kW performance at single phase operation for 90-145Vac or 180-200Vac limits, contact to factory for more details.

| Mechanical Specifications | |
|---------------------------|---|
| Dimensions | 1.7 kW to 5 kW models: H, 1.75" (44.45 mm); W (front panel), 19.0" (483 mm); D, 23.0" (584 mm); H, 1.75" (44.45 mm); W (chassis), 16.9" (483 mm); D, 23.0" (584 mm). 10 kW models: H, 3.47" (88.1 mm); W (front panel), 19.0" (483 mm); D, 23.0" (584 mm); H, 3.47" (88.1 mm); W (chassis), 16.9" (429.2 mm); D, 23.0" (584 mm). |
| Unit Weight | 1.7 kW to 5 kW models: 28 lbs (12.7 kg) 10 kW models: 42 lbs (20.5 kg) |
| Shipping Weight | 1.7 kW to 5 kW models: 34 lbs (15.4 kg) 10 kW models: 60 lbs (27.2 kg) |
| Chassis Material | Steel with plastic front panel |
| Chassis Finish | Galvanized Zinc, G90 |

| Environmental Specifications | |
|------------------------------|---|
| Operating Temp | 0° to +50° C |
| | +32° to +122° F |
| Storage Temp | -30° to +85 °C |
| | -22° to +185° F |
| Operating Humidity | 20-90 %, non-condensing |
| Storage Humidity | 10-95 %, non-condensing |
| Altitude | 3000 m (10,000 ft), output current derating 2%/100 m or Tambient 1⁰C/100 m above 2000 m |
| Cooling | Force-air cooling; linear, variable fan speed control; air intake at front/sides and exhaust at rear |
| Vibration | MIL-PRF-28800F, Class 3; 5-500 Hz per Paragraph 4.5.5.3.1 |
| Shock | MIL-PRF-28800F, Class 3; 30G half-sine with 11ms duration per Paragraph 4.5.5.4.1 |
| Transportation Integrity | ISTA Test Procedure 1A |
| Regulatory Agency Compliance | |
| EMC | CE marked for EMC Directive 2014/30/EU per EN61326-1:2013, Class-A for emissions and immunity as required for the EU CE mark |
| Safety | CSA NRTL certified for US and Canada to CAN/CSA-C22.2 No. 61010-1-12, UL 61010-1 Third Edition. CE marked for LVD compliance 2014/35/EU to EN 61010-1 Third Edition as required for the EU CE mark |
| CE Mark LVD Categories | Installation Overvoltage Category: II; Pollution Degree: 2; Class II equipment; indoor use only |
| RoHS | CE marked for compliance with EU Directive 2015/863/EU for Restriction of Hazardous Substances in Electrical and Electronic Equipment |

Options & Order Information

| Option | Description |
|--------------------|--|
| Interface options | NOTES |
| 0 | None |
| 1 | GPIB Interface |
| 2 | EtherCAT |
| Additional Options | NOTES |
| x | None |
| 0 | Non-Isolated Analog Control, Not Available on 10kW, 2U Models |
| 1 | Isolated Analog Control, All Models |
| ACCESSORIES | NOTES |
| 5330201-01R | Rack Slides (1 pair) |
| 890-524-01 | Paralleling/Series Cable - *Note: 2 cables are required to parallel/series 2 units |
| AST-Z540 | ANSI Z540 Certified Calibration |
| AST-17025 | ISO 17025 Certified Calibration |

Model Number Description:

E = 440/480 V, Line-to-Line, 3-Phase

* Note: See user manual for output power derating vs input voltage.

Warranty Statement:

AMETEK Programmable Power Inc. warrants its products to be free from defects in material and workmanship. The warranty period is from the date of original shipment of the product to the original purchaser (see website for warranty periods by product). Asterion DC comes with a **five (5)** year warranty. Extended warranties available.

Note: All specifications subject to change without notice.
